GMA raises livelihood fund for jobless OFWs to P1B

MANILA—The GMA Foundation for the Philippines has announced that it will increase its livelihood fund for jobless Overseas Filipino Workers (OFWs) to P1 billion.

The fund, which was established in 2004, provides financial assistance to jobless OFWs and their families. It covers various expenses such as medical, education, and housing.

The foundation's president, Dr. Jose G. Sison, said that the increase in the fund is a response to the growing number of jobless OFWs and their families who are in need of financial assistance.

The fund is managed by the GMA Foundation for the Philippines, which is a non-profit organization. It is funded by the GMA Network and its various subsidiaries.

At Intel: All it takes is a slip of paper for worker to stay or go

MANILA—At Intel Philippines, a worker's fate is determined by a single slip of paper. The company's strict policy on attendance and productivity has led to the dismissal of many workers, leaving them in a precarious financial situation.

The workers, who are mostly from the Philippines, are employed in various roles within the Intel Philippines facility. They are subject to strict rules and regulations, including a requirement to be present at work on time and to maintain a high level of productivity.

The workers' union, the Intel Philippines Workers Union, has expressed its concern over the company's policy. It claims that the policy is unfair and that it is leading to the dismissal of many workers who are unable to meet the company's requirements.

Tourism up in RP

MANILA—Tourism in the Philippines has shown a significant increase in the first quarter of 2009, according to the Department of Tourism. The number of foreign tourists visiting the country rose by 10 percent compared to the same period last year.

The increase in tourism is attributed to various factors, including the recovery of the global economy and the Philippines' efforts to attract more tourists. The country has implemented several measures to improve its tourism infrastructure and to provide a better experience for visitors.

The Department of Tourism has also launched several campaigns to promote the country's tourism industry. These campaigns have focused on highlighting the Philippines' rich cultural heritage and its beautiful beaches and landscapes.

COBONPUE'S COCOON DESIGN

By Dave Karger

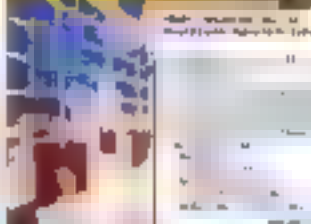

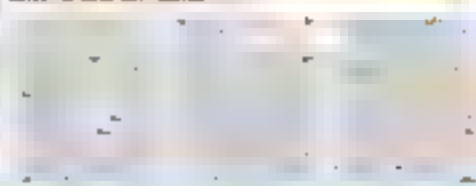

The first time I met Cobonpue, he was in his kitchen, surrounded by a mountain of ingredients. He was cooking, and he was talking to me. He was telling me about his life, his family, his friends. He was telling me about his love for food, for life, for everything. He was telling me about his dream of creating a cocoon of comfort and joy for everyone who enters his home.

Censuring TV 'infotainment'

But they praise actress finger to the audience

But they praise actress finger to the audience

By Jim & Sarah

PHILIPPINE TV'S infotainment shows are a mix of the best and the worst. Some are informative, some are entertaining, and some are just a waste of time. But one show, 'The Infotainment Show', is a gem. It's a show that is both informative and entertaining, and it's a show that is worth watching.

Three stars

Being a TV host is a job that is both challenging and rewarding. It's a job that requires a lot of skills, including the ability to entertain, inform, and engage the audience. But it's also a job that is a lot of fun. And that's what makes it a great job.

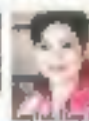

But there is one more reason why infotainment is so popular. It's because it's a show that is both informative and entertaining. It's a show that is worth watching.
